

DeVilbiss Air Power Company Portable Electric Generator

GBV7000

Rated Watts	7000
Surge Watts	8400
HP	14
Hz	60
Voltage	120/240
Amperage	58.3A/29.2A
Receptacles	

Type	NEMA #	Circuit Breaker Protection
120V Duplex	5-20R	20A
120V Twistlock	L5-30R	30A
120V/240V Twistlock	L14-30R	30A

Fuel Capacity	7 gal.
Run Time @ 1/2 Load	9.6 hr.
Run Time @ Full Load	5.9 hr.
Shipping Weight	201 lbs.
Carton Dimensions	28"x20"x28"
Cube	9.07
UPC	732422 00493 8

- ⚡ Premium alternator features brushless design, skewed laminations, dampener bars, metal bearing supports and ball bearings for high efficiency, low current distortion, and long life.
- ⚡ Vanguard engine by Briggs and Stratton features:
 - ⚡ Overhead valves, premium muffler and electronic ignition for quiet operation, greater efficiency and lower emissions.
 - ⚡ Cast-iron cylinder sleeves, pressurized lubrication, low oil shutdown, and dual-element air filter for long life.
- ⚡ Electric start/auxiliary recoil start with compression release for ease of operation.
- ⚡ Extra large 7 gallon tank for extended run time between refueling.
- ⚡ Full perimeter frame protects generator from impacts.
- ⚡ 120V and 240V full capacity, twistlock outlets mounted in panel for convenient access
- ⚡ Equipped with full power switch for matching the appropriate wattage and voltage to the application.
- ⚡ Circuit breaker protection safeguards against damage to electric appliances.
- ⚡ Requires 12 volt battery (not included).
- ⚡ Bilingual graphics (English and Spanish) for reaching a larger audience.
- ⚡ Optional wheel kit available.
