

DeVilbiss Air Power Company Portable Electric Generator

GHV4500

Rated Watts	4500
Surge Watts	5500
HP	9
Hz	60
Voltage	120/240
Amperage	37.5A/18.8A
Receptacles	

Type	Nema #	Circuit Breaker Protection
120V Duplex	5-20R	15A
120V Twistlock	L5-20R	15A
120V/240V Twistlock	L14-20R	15A

Fuel Capacity	7 gal.
Run Time @ 1/2 Load	13.4 hr.
Run Time @ Full Load	7.9 hr.
Shipping Weight	144 lbs.
Carton Dimensions	28"x20"x28"
Cube	9.07
UPC	732422 00599 7

- ⚡ Premium alternator features brushless design, skewed laminations, dampener bars, metal bearing supports and ball bearings for high efficiency, low current distortion, and long life.
- ⚡ Honda engine features:
 - ⚡ Overhead valves, premium muffler and electronic ignition for quiet operation, greater efficiency and lower emissions.
 - ⚡ Cast-iron cylinder sleeves and low oil shutdown for long life.
 - ⚡ Meets new 1997 EPA/CARB emission standards.
- ⚡ Extra large 7 gallon tank for extended run time between refueling.
- ⚡ Full power selector switch for adapting voltage type and power distribution across receptacles.
- ⚡ Equipped with a full power 120V receptacle which is often necessary for operating inductive loads such as air compressors, submersible pumps, etc.
- ⚡ All receptacles and control features mounted in panel for convenient access.
- ⚡ Full perimeter frame protects generator from impacts.
- ⚡ Circuit breaker protection safeguards against damage to electric appliances.
- ⚡ Bilingual graphics (English and Spanish) for reaching a larger audience.
- ⚡ Optional wheel kit sold separately.
